

The Grace Joint School District will follow all State Driver Education policies. Class sizes will be set at twenty (20) students maximum for one instructor, and thirty (30) students maximum for two instructors. Students will be determined by birth date, oldest to youngest, until the 20 or 30 number is met. Students will be allowed to take the first offered class after reaching 14 ½ years of age, unless the class is full. In that case, they will be allowed to attend the next offered class.

The district will have a student fee that will cover the costs incurred to the district. All fees must be paid before the class begins. The district fee will be determined by the Grace Board of Education.

Out-of-district students will pay a student fee that is \$25 more than the regular district fee.
